Bajaj Integrated Health System inaugurates first Nivara Medical Centre in Pune

Bajaj Integrated Health System (BIHS) has inaugurated its first Nivara Medical Centre at Amanora Town Park, Hadapsar in Pune, marking the beginning of its healthcare operations in the city. BIHS plans to invest Rs 2,000 -2,500 crore in Pune over the next three to five years to build a connected healthcare network comprising of Medical Centres, Day Surgery Centres, Homecare and an hospital.

Nivara follows a Medical Centre-led approach, designed to become an early touchpoint in a patient's healthcare journey, beginning with prevention, consultation and diagnosis. By bringing consultations, diagnostics, pharmacy, physiotherapy and homecare into one connected ecosystem, Nivara aims to create a continuum of care that enables greater coordination and continuity across a patient's healthcare journey.

The Medical Centre brings together outpatient consultations across 15+ medical specialties, including Gynaecology, Pediatrics, Endocrinology, Cardiology, Pulmonology, Ophthalmologist etc, supported by 20 + doctors and specialists and 15+ consultation rooms. It will offer diagnostics including laboratory, radiology and imaging services, alongside pharmacy, physiotherapy and homecare. By bringing these services together, the Medical Centre aims to make healthcare more accessible, coordinated and seamless for patients.

Pune will anchor the first phase of Nivara's expansion. The network will comprise of multiple Medical Centres, Day Surgery Centres, and one hospital, creating a connected healthcare ecosystem spanning outpatient care, advanced diagnostics and hospital-based treatment. The Medical Centres are planned to be established across 2026–27, with the Day Surgery Centresand hospital expected to follow over the upcoming years.

BIHS will focus on building and strengthening Nivara's presence in Pune, with a view to extending its integrated healthcare model to other major Indian cities over time.
