Cipla Health's Maxirich launches Vit C and zinc tablets

16 June 2021 | News

The products will help to boost immunity

Maxirich, the flagship health supplement brand of Cipla Health has introduced two new products - Maxirich Vitamin C+ Zinc Chewable Tablets and Maxirich Gold Advanced Daily Supplement thereby extending the brand's immunity building product offerings to consumers.

Maxirich Vitamin C+ Zinc chewable tablets have antioxidant properties that strengthen the immune system and also help to reduce fatigue. Maxirich Gold is made up of high purity grade Ginseng extract, along with the goodness of 10 Vitamins and nine minerals, which together act as a catalyst in reducing stress levels, boosting energy, building immunity, bolstering memory and concentration.
