Amrita School of Ayurveda launches online portals for Panchakarma and clinical e-learning

13 March 2023 | News

Projects have been funded by Rashtriya Ayurveda Vidyapeeth, Ministry of AYUSH

Amrita School of Ayurveda, a part of Amrita Vishwa Vidyapeetham, has launched two online portals for the Ayurveda community. While e-MAP is an e-module application for Panchakarma, AyurCel is tailor-made for clinical e-learning. The projects have been funded by the Rashtriya Ayurved Vidyapeeth, Ministry of AYUSH, Govt. of India.

The e-MAP project is an interactive portal that provides comprehensive information related to Panchakarma. It includes a learning module featuring lesson plans, *sloka* recitations, illustrative animations, and self-assessment aids on UG and PG Panchakarma syllabi. It also offers standardised videos of various clinically practiced Panchakarma procedures and a directory search for information related to faculties, postgraduates, publications, dissertations, and colleges offering Panchakarma PG, PhD, and equipment suppliers. The project is led by team Dr Parameswaran Namboothiri, Professor, Panchakarma, School of Ayurveda, Amritapuri.

The AyurCel project is a clinical learning tool to make the clinical experiences of successful Ayurveda clinicians available in a digital format to facilitate continuous clinical learning. It offers case studies, modules for post-publication review of published case reports, and a preprint server for fast-track publication of the first draft of case reports. The doctors can use the portal to share their treatment experiences.The project is led by a team under Dr P Rammanohar, Research Director, Amrita Centre for Advanced Research in Ayurveda (Ä?CÄ?RA), School of Ayurveda, Amritapuri.
