DKMS calls for applications in research-based activities

12 August 2022 | News

The grants are endowed with â?¬240,000 each, which will be paid out over three years

Scientists with a research focus on stem cell transplantation and cell therapy are invited to apply for the 2023 DKMS John Hansen Research Grant. With this grant, the DKMS Stiftung Leben Spenden (Foundation for Giving Life) supports up to four outstanding research projects each year that aim to advance medical progress and improve the chances of recovery for blood cancer patients. The requirements include a doctoral degree (PhD, MD or equivalent) that was obtained no longer than 10 years ago. The grants are endowed with €240,000 each, which will be paid out over three years. The application deadline is December 2, 2022.

All information about the application modalities and further details about the DKMS John Hansen Research Grant is available on the DKMS Professionals' Platform.
