IIT Delhi signs MoU with Indian Oil Corporation Ltd

13 November 2017 | News

MoU aims to develop a long-term framework for research collaboration and advancement of technology

IIT Delhi has signed a memorandum of understanding (MoU) with the Indian Oil Corporation Ltd (R&D Centre).

MoU aims to develop a long-term framework for research collaboration and advancement of technology.

The main objective of the MoU will be for the two organizations to collaborate for promotion of education, research and innovation in the areas of mutual interest.

A highlight of this MoU is that IOCL will offer additional 25% higher fellowship amounts to the IOCL-IITD research scholars having CSIR-NET JRF or any other equivalent fellowships and full fellowships to exceptional GATE qualified students.
