EyeQ fortifies leadership in Gujarat with major expansion and facility upgradation in Surat

15 February 2025 | News

OTs dedicated to Cataract, LASIK, and Retina treatments added to meet the growing demand

Eye-Q, a leading chain of super-specialty eye care hospitals, has announced the substantial upgradation of its Surat eye care facility in Gujarat, with the addition of four cutting-edge modular operation theatres (OTs) dedicated to cataract, LASIK, and retina treatments.

The Surat facility now provides an even broader spectrum of services, including cataract surgery, retina treatment, LASIK, glaucoma care, ICL procedures, squint correction, and optical services, meeting the growing demands of the community with world-class expertise. Notably, this facility is home to over 20 highly skilled eye care specialists, each bringing decades of experience in their respective fields.

The inauguration of this newly upgraded facility was graced by Chief Guest Anita Vanani, Deputy Commissioner of Police. Guest of Honour, Kamlesh Naik, Assistant Municipal Commissioner, Surat also attended, alongside Ashish Naik, Deputy Municipal Commissioner. The event even saw participation from senior officials at Eye-Q, marking a moment of pride for both the organization and the local community.

With the rising demand for specialised eye care services, Eye-Q has been at the forefront of providing high-quality care in Gujarat. Since its entry into the state in 2011, Eye-Q has conducted 10,21,066 eye examinations and performed 65,048 surgeries across its network of 6 super-speciality hospitals.

In Surat alone, the facility has completed 281,933 eye examinations and 41,124 surgeries, establishing itself as a go-to destination for advanced eye care. With the introduction of four modular OTs and dedicated specialists, Eye-Q aims to further increase its capacity to serve the community, offering enhanced precision and care to more patients.
