Mumbai to host analytica Anacon India and India Lab Expo in April 2018

10 April 2018 | News

The trade fair is scheduled for April 25-26, 2018 at Bombay Exhibition Centre

The Indian analytical instrument industry is expected to grow from 0.5 billion EUR to 2.4 billion EUR between 2012-20 having CAGR of 17%**and is poised to grow steadily.

One of the major drivers for this market is growing regulations to ensure high-quality products which are in-turn making end-users more quality aware; this unquestionably comprises of the pharma, chemical, food & beverages, R&D and allied industries, where the quality needs to be conserved from molecular level; the demand for laboratory analytical instruments is assured to intensify.

In order to capitalize on this growth opportunity, Messe Muenchen India announced a regional edition of analytica Anacon India and India Lab Expo, the market leading trade fairs for laboratory technology, analysis, biotechnology and diagnostics in Mumbai for the very first time. The trade fair is scheduled for April 25-26, 2018 at Bombay Exhibition Centre.
