

USFDA completes inspection of Lupin's Nagpur plant

14 May 2018 | News

The US health regulator has completed inspection of its Nagpur facility without making any observations

LUPIN

Pharma major Lupin today said the US health regulator has completed inspection of its Nagpur facility without making any observations.

In a BSE filing, Lupin "announced successful completion of an inspection carried out by the United States Food and Drug Administration (USFDA) at its Nagpur facility. The inspection concluded without any observations".

Lupin said its Nagpur facility manufactures oral solid products.
