Augments after-sales service

Biodigital represents Syngene, Martin Christ, Dometic, Mennert, Biochrom, Kinematica AG, and Marvel Scientific, in India. The range of products offered by the company are in three market areas such as life sciences and biotechnology markets, pharmaceuticals and healthcare. The company has sales revenue of Rs 27 crore in fiscal 2009-10. It provides production scale freeze drying machines for the pharmaceutical industry. In the healthcare sector, the company provides cold chain and blood chain systems for storage and transportation of vaccines, blood and other thermo-labile substances.

Biodigital has been concentrating on the excellent after-sales service to its esteemed customers through a team of well-trained service engineers. Application support is provided to the customers by the company as and when required through specialists in the respective fields. Also, the training is imparted to the service personnel at the principals' factories from time to time. The company also maintains a good inventory of critical spares so that in the event of a breakdown and fault, the downtime of equipment is reduced to minimum.
