**The startup plans to build deeper technology and domain expertise.**

Mumbai-based healthtech startup Zoctr Health has raised an undisclosed amount of Pre-Series A funding from NB Ventures, Dubai and a host of other angel investors including Udaipur Angel Network etc.

With this round, the total funding raised by Zoctr has reached \$2 million. With the Pre-Series A funding, the startup plans to build deeper technology and domain expertise.

Further, it is also creating the largest Pan India database of qualified and registered blue collar workers including Nurses, Attendants, Baby Care Nurses and Nannies on the backend of its App.

Zoctr also plans to add electronic health dashboard as well as remote monitoring features to its App. Further, it plans to enter the explosive home cancer care and chemotherapy market.

Zoctr, founded in 2015, aims to aggregate home health, telehealth, and remote patient monitoring services, specifically targeting the post-operative care segment.
