

## BLK Hospital bags Healthcare and Wellness award

26 June 2018 | News

**The award recognized the Hospital's excellent contribution to the field of Tertiary care.**

BLK Super Speciality Hospital, a leading healthcare provider in Delhi-NCR, was awarded CNBC-TV18 Healthcare and Wellness Awards 2017. The Hospital bagged the award under 'Best Multi Speciality Hospital-Metro' category. The prestigious award was received by BLK Team led by Dr Mradul Kaushik, Director, Operations and Planning at a glittering award ceremony in Mumbai on June 21.

The Award, now in its eighth year, saw more than 3,000 hospitals sending in their nomination this year. IMRB, a leading market research agency, carried out an extensive field work as per scientific methodology, capturing consumer and doctors' ratings that helped to shortlist the top names for the Jury Panel. The awards were presented by Daniel Kraft, MD, Faculty Chair for Medicine & Neuroscience, Singularity University & Founder and Chair Exponential Medicine, San Francisco, USA.

The award recognized the Hospital's excellent contribution to the field of Tertiary care. The Hospital has been offering the highest quality services at its Centers of Excellence such as BMT, Oncology, Cardiac sciences, Neurosciences, Orthopedics amongst others.

"The prestigious award is very inspiring and encouraging for us. We have always set high benchmarks in patient care and healthcare delivery systems. The Award testifies BLK Super Speciality Hospital's constant endeavour to provide world-class patient care and maintain highest standards in healthcare delivery systems across India. We have carved a niche with highly experienced medical professionals, high quality services, innovative technological tools, IT architecture and deployment of global best practices for the patient care and safety," said Dr Mradul Kaushik.

This award is testament to the hard work and dedication shown by the BLK team to push boundaries in all spheres whether it is exploring newer geographies, digitizing healthcare with E- Health Records or an e-prescription etc. We have gone ahead to redefine patient care with technologically advanced innovations, excellent support services for overseas patients, concierge services for ease of travel of patients coming from across borders, in every sphere there is an uncompromised desire to deliver the highest standards of services for overall satisfaction of our patients. We have also adopted new components of process and technology for a new healthcare ecosystem which redefines the healthcare delivery and products space with high quality care, specialty centers of excellence and expansion of the continuum of care. Increasing patient participation, the use of technology in delivering care and priority to patient safety are some of the disruptive trends where BLK Hospital has

taken a lead,” Dr Kaushik added.

It is pertinent to note that BLK Super Speciality Hospital was recently granted Joint Commission International (JCI) accreditation for its high level of quality, care and safety. The JCI evaluated hospital's standard of access to care, assessment of patients, infection control, patient and family rights and education.
