

Lindström launches India's first cleanroom unit in Pune

06 August 2018 | News

Lindström India, India's only organized workwear service company has just launched its first Cleanroom Unit in India

Lindström India, a 100% subsidiary of the Finnish Lindström Oy launched its second line of business, called Cleanroom services in India to ensure the highest quality, hygiene, safety and reliability which is most critical to customers in the pharmaceutical, food and electronics industry.

Lindström's cleanroom service ensures hygienic production facilities by providing garments serviced in cleanroom laundries which prevent contaminations during process hereby ensuring complete safety of the products being manufactured.

The cleanroom unit, spread over 50,000 square feet has a capacity of servicing 400,000 numbers of uniforms per month. The staff in the unit has received special training from experts in Finland and operates under classified cleanroom environment to guarantee the supply of particle free and contamination free garments to its customers.

Inaugurating the new unit in Chakan in Pune, Dr. Suresh Jadhav, Executive Director, Serum Institute of India Pvt. Ltd. said, "We're very excited about the launch of Lindström's first cleanroom unit for us. We have been working with Lindström for the last two years on this project and see huge value in the professional workwear services they offer. The Cleanroom Unit is a huge step in our mission of conforming to the highest industry standards and our commitment to quality."
