

3Hcare raises \$1 million in second round of funding

06 September 2018 | News

3HCare was founded by Ruchi Gupta in 2016. It is an initiative by a group of senior health care professionals to bridge the gap between patients and healthcare services for an enriched experience.

New Delhi based healthcaretech start up has raised \$1 million in the second round of funding from a group of technology experts.

“We plan to utilize this investment to expand our team, infrastructure and scale up the platform by strengthening IT,” said Ruchi Gupta, Founder and CEO, 3HCare.

Ruchi Gupta added, “The idea has always been to improve hyper-local neighbourhood concept, powered in the front end by technology. Part of funds will be used to bolster and upgrade our technology, especially incorporation of Artificial Intelligence (AI) and Machine Learning (ML) to provide an enhanced value added customer experience & expansion to PAN India.”

3HCare was founded by Ruchi Gupta in 2016. It is an initiative by a group of senior health care professionals to bridge the gap between patients and healthcare services for an enriched experience. Within two years of inception, the portal has improved the accessibility to healthcare for all.

The portal provides access to labs and hospitals with complete information regarding tests, pricing, discount, location, etc. The portal allows users to compare and book online treatment for cancer, heart, spine, orthopaedics, neurology, fertility, gynaecology, organ transplant, cosmetic surgery, and others.
