

Dr Partap Chauhan addresses the Lithuanian Parliament on preventive healthcare

24 September 2018 | News

In his address, Dr Chauhan discussed the scope and potential of Ayurveda in nation building through preventive healthcare.

Dr Partap Chauhan, Director, Jiva Ayurveda was recently invited to address members of the Parliament of Lithuania, heads of Central Health Commission and various health committees during his educational tour of France, Poland and Lithuania.

In his address, Dr Chauhan discussed the scope and potential of Ayurveda in nation building through preventive healthcare. He spoke on how following the principles of Ayurveda can prevent diseases and have a direct impact on reducing health care costs, increase manpower utilization and contribute in propelling the nation forward. Chronic and lifestyle diseases, such as Diabetes, Stress, Obesity and Heart disorders have become a major concern for both developing as well as developed nations around the world, and Ayurveda is the solution the world needs.

Dr Chauhan also informed the distinguished guests on the work done by Jiva Ayurveda in the fields of precision medicine and preventive healthcare over the last 25 years, and invited them to visit India to see Ayurveda in action. He also interacted with the members of the press after the address.
