MedAchievers, Venture India to launch $100 M healthcare fund

05 October 2018 | News

With this $100 million funds, the collaborators intend to support 15 startups in India.

Healthcare platform MedAchievers has partnered with business consultancy firm Venture India to launch a $100 million fund MedAchievers Connect to fund cutting-edge research in healthcare in India.

With this $100 million funds, the collaborators intend to support 15 startups in India and look to offer the best balance between investments, innovations and implementation.

MedAchievers, in the last four years, have supported startups in six geographies including the United Kingdom and Australia.

MedAchievers has been working since 2014 in global business healthcare space. It has got over 400 hospitals onboard with over 50,000 medical doctors in India.
