

First dedicated women's hospital opens in Indore

20 February 2019 | News

Motherhood Hospitals brings in top notch facility with the clinical expertise to offer comprehensive women care in the city.

Motherhood Hospitals, India's fastest growing network of women & children's hospital announced the launch of their 12th new hospital in Indore recently.

The Bengaluru-based healthcare chain is a part of the Asia Healthcare Holdings enterprise and operates a network of women & children's hospital across India.

Through a dedicated team of highly skilled Obstetricians, Gynecologists, Neonatologists, and Pediatricians the hospital provides a range of services for women across different stages of life. Ranging from women wellness programs, adolescent health, expertise in handling all kinds of pregnancies including high risk ones to advanced gynaecology surgery, the hospital has great competency in providing care for women. It also provides high-end neonatal intensive care units for preterm babies or those requiring intense neonatal care. The NICU at Motherhood hospital is one of the largest in the city.

From looking after the needs of the expectant mother and handling high-risk pregnancies with the utmost care to bringing smiles in the lives of childless couples through its advanced Assisted Reproductive Therapy (ART) programme – Motherhood Hospital - Indore is a leading centre in all these areas. Moreover, the team of medical experts at the centre are highly-skilled and have vast experience in the field of minimally-invasive surgery.

Speaking on the occasion, **Vijayarathna V, CEO, Motherhood Hospitals**, said, *"We are elated to be foraying into Indore and driving our vision of providing accessible, affordable and comprehensive healthcare to women across ages in the country. An exclusive women hospital was a need of the hour in Indore and we are much happy to provide a comprehensive facility that caters to healthcare needs of woman at different stages of life."*

The wide range of services include prenatal and postnatal counselling, round-the-clock gynaecology and paediatrics consultations, medical management of lifestyle problems through the right diet and exercise regime, state-of-the-art Neonatal Intensive Care Unit (NICU) with specialised care for preterm babies and painless delivery options for the mother. The focus is

on personalised care coupled with accurate diagnosis and treatment of complex gynaecological conditions.

Speaking on the occasion, **Dr Asha Baxi, Gynaecologist and Infertility Expert, Motherhood Hospitals**, said, “*Motherhood Hospitals foray into Indore is going to enable women by giving them access to world class healthcare for all their medical needs. We provide a gamut of specialized services ranging from prenatal & postnatal counselling and round the clock Gynaecology & Paediatrics consultations to state-of-the-art NICU and painless delivery. Our doctors adopt a compassionate, multi-disciplinary and holistic approach to treatment, and deliver the best possible medical care. With the latest technological adoptions in this facility, we are creating a benchmark for comprehensive healthcare in women*”.

The comprehensive women and children hospital in Indore is equipped with 70 operational beds with 20 beds of Level 3 Neonatal Intensive Care Unit. The key specialties include gynecology, pregnancy care, neonatology, pediatrics, fertility care, advanced laparoscopy surgery, fetal medicine, cosmetology and radiology. The hospital has 4 state-of-the-art operative theatres and medical intensive care units. The hospital will provide 24/7 service by a team of full time doctors that includes pediatricians, gynecologists, trained and experienced team of nurses & nutritionists and physiotherapists, lactation consultants as part of the larger team.
