

Promega India Announced as “Best Innovative Biotechnology Solutions Company” in India Business Awards, 2019

30 April 2019 | News

Promega Biotech India Private Ltd. has been named “Best Innovative Biotechnology Solutions Company” in the India Business Awards, 2019.

India Business Awards, 2019 recognizes the top industry leaders and is hosted by Blindwink Solutions Private Limited, a leading global, insight driven market research company. The award was presented by Chief Guest Ms. Dña Mirza, a Bollywood celebrity who has won the Miss Asia Pacific 2000 title. The award ceremony was telecast on Zee Business News Channel and press releases are uploaded on different social networking websites.

This recognition comes at a time when Promega India is celebrating its five-year anniversary.

“This is great moment for us as we have offered the innovative solutions to life scientists in academic, industrial and government settings,” said Dr. Rajnish Bharti, General Manager, Promega Biotech India Private Ltd. on receiving the award. “We have offered innovative products like our microsatellite instability (MSI) technology to help investigate the best treatment path for cancer, NanoBRET™ TE Intracellular Kinase Assay for drug discovery and development and STR chemistry for leading forensic labs in India.”

He further added, “I would also like to wholeheartedly thank our customers, business partners and each employee of Promega for their trust and continuous support.
