Pall Biotech organises seminar on Virus Filtration at Pune

04 June 2019 | News | By Online Content Journalist Ankit Kankar

The sessions were held in Pune on 4 June 2019 at Sheraton Grand.

Pall Biotech experts conducted a one day training programme on the challenges of exploring, testing & validating virus filters.

The sessions were held on Tuesday 4th June 2019 in Pune, India from 2:30 p.m. to 7:30 p.m. at Sheraton Grand

By associating with this programme, the participants surely gained an understanding of:

- The fundamental principles of virus filtration
- Challenges associated with exploring, testing and validating the virus filtration process
- Local regulatory framework – present and future
- Virus validation planning and continuous clearance processes from a Pall industrial partner
- Practical 'hands-on' session with virus modules

The next date of Seminar is Thursday, 6th June 2019 in Hyderabad, India from 2:30 p.m. to 7:30 p.m.
