

'We created WOOM in response to our personal experiences of becoming pregnant and by understanding the large need of having relevant information that you can trust and that is applied to you,' said Laurence Fontinoy Co-founder and CEO of WOOM. 'We already have over 600,000 users across Spanish speaking countries and, by collaborating with Ferring, a

renowned leader in the fertility space, we hope to expand our reach to help more people achieve their dream of becoming parents sooner.'

Ferring Pharmaceuticals is a research-driven, specialty biopharmaceutical group committed to helping people around the world build families and live better lives. Headquartered in Saint-Prex, Switzerland, Ferring is a leader in reproductive medicine and women's health, and in specialty areas within gastroenterology and urology. Ferring has been developing treatments for mothers and babies for over 50 years and has a portfolio covering treatments from conception to birth. Founded in 1950, privately-owned Ferring now employs approximately 6,500 people worldwide, has its own operating subsidiaries in nearly 60 countries and markets its products in 110 countries.

WOOM is a women's technology company that through data provided by women such as menstrual cycle, age and lifestyle, helps to predict the chances of pregnancy and thus increase their chances of conceiving. WOOM also focuses on women's health and helps all women by providing them with personalised information for each of them. This FemTech company has a community where all women create groups and talk freely about their experiences, helping and giving advice to all those who need it. With 600,000 records and 900,000 downloads, it has helped more than 128,000 women become pregnant within 3 years.
