

Jubilant announces price increase of 10% for Vitamin B3

16 July 2019 | News

Jubilant is currently the second largest producer of Vitamin B3 globally

Jubilant Life Sciences Limited, an integrated global Pharmaceutical and Life Sciences Company, has announced a price increase of 10% for its Vitamin B3 (Niacin & Niacinamide) with immediate effect, for non-contract customers and wherever existing contracts permit.

Jubilant is currently the second largest producer of Vitamin B3 globally.

The Vitamin B3 business is part of company's Life Science Ingredients (LSI) segment, which offers a broad portfolio of ingredients that find application in wide range of industries.
