Excellent platform for analytical sciences, lab services

04 November 2010 | News

The second edition of India Lab Expo and Conference, said to be the biggest lab exhibition in South Asia, will showcase the latest analytical equipments, instrumentation and services in all major areas of analytical sciences and laboratory services. The event provides an opportunity for presentation of the latest state-of-the-art technology in the field.

INDIA LAB EXPO December 10-12, 2010 Pragati Maidan, New Delhi

The aim of the exhibition is to provide a platform for business developments, marketing and open new avenues for transfer of technologies to motivated entrepreneurs and the scientific fraternity.

About 250 exhibitors and 6,000 visitors are expected to attend. The exhibitor profile includes laboratory, analytical, biotechnology, microbiology, clinical lab, pathology, diagnostic, medical lab, educational lab and optical instruments. Apart from such instruments, lab chemicals, lab furniture, lab glassware, lab plastic ware, filtration, software and liquid handling products manufacturers and distributors are also participating in this mega event.

The event also has a knowledge sharing and networking opportunity with a two-day conference. The conference is expected to attract 200 delegates, and provide a scientific and educational platform for laboratory professionals who seek an update in their area of specialization. Currently, the organizers are compiling a comprehensive and diverse technical program, including three different sessions on analytical instrumentation, clinical research, biotechnology and physics. Topics like good laboratory practices and overview of laboratory introduction management systems will cover the talk sessions.

Vivek Vikram, managing partner, ScientificDealers.Com, said,“We are pretty sure that this exhibition will cater to a wide range of inquiries, which will certainly boost the business of the participants. We have a sudden feeling of excitement that the region’s scientific and laboratory manufacturers, once again, choose India Lab Expo as a platform for seeking regional and international partners in this rapidly growing sector.”

A large number of scientists and decision-makers from pharmaceutical, healthcare, life sciences, biotechnology industries are likely to participate; besides hospitals, pathological and clinical trials labs and trade suppliers.
