

Tata Projects completes 1000-bed Medanta Hospital in Lucknow

12 November 2019 | News

This world-class hospital covers 1.4 million sq ft and will offer modern medical services

TATA Projects Limited, one of India's fastest growing and most admired infrastructure companies, recently completed and handed over Lucknow's 1000-bed Medanta hospital which was thereafter inaugurated by the Chief Minister of Uttar Pradesh.

This is a super speciality hospital with total built-up area of 1.4 million sq ft, includes two basements, lower ground floor, upper ground floor and 11 upper floors.

Dr Naresh Trehan, Chairman and Managing Director, Medanta said, "Medanta was envisioned as a synthesis of the wealth of traditional knowledge of the east and advancements of modern medicine. It is actively contributing to advancements in medical science and is expanding its footprint of patient-centric medicine in cities like Lucknow."

Speaking about this prestigious project, K Satyanarayana, COO – Industrial Systems, Tata Projects Ltd, said, "We are extremely delighted to have constructed and completed this project by incorporating globally available best practices and technologies. The completed hospital stands as testimony to the expertise of Tata Projects team to execute hospitals within shortest possible time while adhering to global standards. This project will not only provide world-class medical services to residents of Lucknow but also cater to people from across the region."

The recently inaugurated hospital by Chief Minister of Uttar Pradesh will comprise world-class facilities such as cardiology and cardiac surgery, neurology, gastroenterology, urology, orthopaedics, radiology, transfusion medicine, pulmonary medicine, medical oncology, internal medicine, and endocrinology, among others.
