Life Sciences Business (in Rs Crore)

Rs 70 Crore

Nishotech along with its technology partners offers turn-key solution for various purification and separation needs of its customers

Nishotech provides solutions to pharma and biopharma companies with design and project management services

Nishotech clocked an annual life sciences revenue of Rs 70 crore for the fiscal 2009-10. In the life sciences space, Nishotech looks at separation technologies by offering customized filtration, separation and purification solutions with technology portfolio of membranes, chromatography and ion exchange to industries like pharma, biopharma, sugar, dairy, starch, automotive and mechanical as well as chemical industry.

In the pharma and biopharma space, Nishotech-Novasep association provides separation and purification solutions using membrane and prep-chromatographic technologies. Part of Rs 1,997 crore (Ã¢â??Â¬350 mn) Novasep Group (Groupe Novasep), Novasep Process SAS primarily concentrates on purification needs of pharmaceutical, food, cosmetic, agrochemical and specialty chemical industries; using industrial processes.

Novasep Process offers solutions for producing pure products, right from process development to optimization, and from the supply of laboratory purification equipment to the delivery of industrial turn-key purification plants. Through synergies with Novasep Synthesis, Novasep Process technologies enable straight-forward and cost-efficient global synthesis of new molecules, while helping to reduce time-to-market. Novasep Process' core technologies are chromatography, crystallization, ion exchange, membranes and evaporation. Dr MÃ?Â¼ller AG, Switzerland, is a technology partner for Nishotech for their patented candle filtration design.

Nishotech also specializes in delivering the required quality and flow rate of pharmaceutical water as per the URS according to standards set by the US FDA,UK MHRA and TGA. Nishotech provides solutions to pharma and biopharma companies with design and project management services wherein engineers from the company help their clients in planning and executing the state-of-the-art facilities.

Nishotech along with its technology partners offers turn-key solution for various purification and separation needs of its customers. The company provides complete support such as designing erection, installation and commissioning and also undertakes AMCs. Nishotech is also known for its sterile process piping systems.
