Trivitron launches range of sanitizers & protective coverall

02 April 2020 | News

The Kiran Health Shield Hand Sanitizers will be available in 4 Variants

Trivitron Healthcare's Kiran Medical Systems has launched "Kiran Health Shield" range of Hand Sanitizers & Protective Coverall for Healthcare Professionals.

The Kiran Health Shield Hand Sanitizers will be available in 4 Variants:

Pro-Liquid: 75% Isopropyl Alcohol with Hydrogen Peroxide for advanced care in Hospitals, ICUs etc.

Ultra Pro-Liquid: 70% Isopropyl Alcohol with Chlorhexidine Gluconate for advanced care in Hospitals, ICUs etc.

Hand Cleanser Gel: 60% Denatured Ethanol with moisturizer and humectant in Gel form for regular use in Homes, Offices, Clinics, Laboratories, Restaurants, Stores, Schools etc.

Hand Cleanser Liquid: 60% Denatured Ethanol with moisturizer and humectant in Liquid form for regular use at Homes, Offices, Airports and Transportation Hubs, Clinics, Laboratories, Restaurants, Stores etc.

The Kiran Health Shield Protective Coverall is a disposable Personal Protective Wear made from high quality laminated non-woven fabric and offers adequate barrier protection against light fluid contact and particulate matter.

Speaking on the occasion Satyaki Banerjee, CEO, Medical Imaging, Trivitron Healthcare commented, "Over the last 2 Weeks, Trivitron Healthcare has literally changed the gears with a single motto to create solutions in our relentless fight against Covid-19 pandemic. The new Kiran Health Shield range of Hand Sanitizers & Personal Protective Coverall is the result of the same. We at Trivitron Healthcare Salute the Healthcare Professionals for their selfless service and our employees who have come together during these testing times to deliver Products that are needed on utmost priority. Trivitron Healthcare is at war footing and will continue to deliver more Covid-19 oriented solutions that will benefit the country over the coming weeks. All products are manufactured at our ISO 13485 compliant manufacturing facilities."

Commenting on this development Dr. GSK Velu, Chairman and Managing Director, Trivitron Healthcare Group of Companies said, "First of all, I thank the Healthcare Professionals and Government employees for their selfless service to fight Covid-19. When the country needed, Trivitron responded. We look at this moment as an opportunity to serve the nation more than anything else. In fact, the entire Trivitron group strategy is now around creating Coronavirus solutions right from testing kits, ventilators to protection solutions etc and these are possible thanks to our hardworking and determined employees during this crisis."

The Products are the result of Trivitron Healthcare's commitment to support the fight against infectious diseases like the Covid-19 pandemic.
