

## DST establishes response centre to combat COVID-19

06 April 2020 | News | By Manbeena Chawla

### Setting up of a Centre for Augmenting WAR with COVID-19 Health Crisis (CAWACH) at a total cost of Rs 56 Cr

Department of Science & Technology, Government of India in a rapid response to combat COVID-19 global pandemic approved setting up of a Centre for Augmenting WAR with COVID-19 Health Crisis (CAWACH) at a total cost of Rs 56 Cr to scout, evaluate and support the innovations and start-ups that address COVID-19 challenges.

The Society for Innovation and Entrepreneurship (SINE), a technology business incubator at IIT Bombay supported by DST has been identified as the Implementing Agency of the CAWACH.

The support will be provided to startups at different stages for fast tracking commercialization process and journey and scale-up across geographies which will have significant impact in the long term.

The CAWACH's mandate will be to extend timely support to potential startups by way of the requisite financial assistance and fund deployment targeting innovations that are deployable in the market within next 6 months.

CAWACH will identify upto 50 innovations and startups that are in the area of novel, low cost, safe and effective ventilators, respiratory aids, protective gears, novel solutions for sanitizers, disinfectants, diagnostics, therapeutics, informatics and any effective interventions to control COVID-19.

It will provide access to pan India networks for testing, trial and market deployment of these products and solutions in the identified areas of priority COVID-19 solutions. This will help to address various challenges faced by country due to severe impact of Covid-19.

“CAWACH program of DST is focused on leveraging the youthful energy, intelligence and extraordinary innovative potential of our technology incubators and startups and empowering them for scale-up to speedily address the multi-dimensional challenges of COVID-19 across respiratory aids, disinfection systems, protective gear and coatings, information and monitoring assists, diagnostics, and plethora of other relevant materials, devices and solutions”, said Professor Ashutosh Sharma, Secretary, Department of Science & Technology.
