Nexzu Mobility introduces state-of-the-art face shields

10 April 2020 | News

Covering the entire face, the shield is highly-effective for inhibiting the spread of droplet-based viruses

Nexzu Mobility, India's leading end-to-end electric mobility solutions provider, has recently forayed into the personal protective equipment space. As part of its commitment towards community protection amid the unprecedented COVID-19 outbreak, the brand has introduced state-of-the-art face shields.

The face shield by Nexzu Mobility has been designed to provide an extra layer of protection over face masks. Covering the entire face, the shield is highly-effective for inhibiting the spread of droplet-based viruses. It is, thus, beneficial for the essential workers such as healthcare professionals, police officers, security personnel, etc, who are acting as frontline warriors in the fight against the deadly COVID-19.

Speaking on the development, Mr.Pankaj Tiwari India Business Development Head, Nexzu MobilityIndia, said, "As the Coronavirus contagion gains scale in India, we believe that is the duty of brands – which have abundant resources – to focus their energies on the health and safety of Indians. It is for this reason that we have forayed into the personal protective equipment space and launched face shields." On the back of its technically competent, high-quality resources, Nexzu Mobility has been able to deliver an innovative product in a very short duration.

Mr. Rahul Shonak, Chief Operation Officer, Nexzu Mobility India said "At Nexzu, we are always ahead of the curve in technology. With strong inhouse teams of R&D, Product design, Development and Support of production and suppliers, we made FaceShield from concept to production in less than a week. Our approach of rising on the occasion clearly demonstrates our commitment towards our customers. We are fully committed to this cause and will introduce more such products soon.

Nexzu is currently accepting orders from across the country. Going forward, it is planning a foray into the face mask category as well
