

DBT announces funding for Indo-German life sciences project

25 May 2020 | News

It is also suitable for Indo-German projects about epidemics or pandemics such as the current SARS-CoV-2 pandemic

The Department of Biotechnology (DBT) and the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) wish to inform the Indian and German scientific communities that, effective immediately, it is possible for teams of Indian and German researchers to seek synchronised funding for integrated Indo-German cutting-edge fundamental research projects proposing innovative approaches in the academic disciplines covered by the Department of Biotechnology (DBT), Ministry of Science and Technology, Government of India, with a duration of up to three years.

Since this programme addresses all fields of the life sciences, interested applicants may note that it is also suitable for Indo-German projects about epidemics or pandemics such as the current SARS-CoV-2 pandemic.

In line with the general orientation of this programme, only proposals describing fundamental research projects will be considered. This excludes, for example, clinical trials or applied diagnostics.
