

Jivagram becomes first AYUSH hospital accredit by NABH

21 August 2020 | News

A certification of impeccable healthcare standards, the NABH accreditation gives Jivagram a strong foothold in Ayurveda-based medical care

Faridabad based hospital Jivagram, a holistic centre for well-being by Jiva Ayurveda, has become the first AYUSH hospital in Haryana to be accredited by the National Accreditation Board for Hospitals and Healthcare Providers (NABH). A certification of impeccable healthcare standards, the NABH accreditation gives Jivagram a strong foothold in Ayurveda-based medical care and further consolidates its position as an authentic Ayurvedic healthcare provider.

Built on core Ayurvedic values of targeting the root cause of illnesses, Jivagram believes in the complete wellbeing of an individual - one that incorporates the mind, body and soul. Its Ayurvedic treatment approach, derived from ancient and traditional Ayurvedic practices, is suited to address the individual needs of every patient. And to that end, Jivagram provides customized Ayurvedic medicines and treatment, along with guidance on diet and lifestyle.

The highlight of Jivagram's well-groomed Ayurvedic practices is thorough detoxification and rejuvenation of the body through personalized Panchakarma therapy sessions. This renowned five-step cleansing process eliminates diseases, balances the doshas, and helps patients attain a healthy and purified body, full of positive energy. Apart from Panchakarma therapies, Jivagram also offers personalized Yoga Sessions, Raga Chikitsa, Art Therapies, and Ayurvedic Cooking Classes as support to the mainline treatments.

In view of recent times, Jivagram also adheres to precautionary measures and COVID safeguards, maintaining thorough and stringent hygiene procedures throughout a patient's journey. The hospital-grade cleaning and screening protocols make Jivagram a secure, welcoming, and trusted environment.
