Life Essentials launches protection spray range to inactivate Covid-19 virus

14 October 2020 | News

The W2 Surface Protection Spray once applied on any hard surface can give protection for up to 24 hours

Gurugram based Life Essentials Personal Care has launched a path-breaking and innovative range of No Alcohol - No Bleach Protection Sprays. Named ‘W2 Protection Spray Range’. The product has been scaled up, manufactured and commercialized by Life Essentials and is based on licensing of the ECORSANI technology developed by IIT Bombay.

Ecorsani TM technology by IIT Bombay relates to biodegradable, safe, GRAS approved compositions. The Ecorsani formulation is antibacterial, antiviral and antifungal and on direct application has inactivated coronavirus samples.

This technology when tested on SARS-nCOV2 (COVID 19) virus on the direct application has proven to inactivate the Covid 19 virus. The W2 Protection Spray Range includes - W2 Apparel Protection Spray, W2 Room Protection Spray, W2 Hand-Body Protection Spray and W2 Surface Protection Spray. The alcohol and bleach-free products have been formulated with a blend of all-natural, biodegradable, safe to use and made of GRAS (Generally recognized as safe) approved composition.

The W2 Apparel Protection Spray when directly applied on clothes ensures protection from viruses, bacteria and fungi for up to 24 hours. The W2 Room Protection Sprays can be used for protecting one’s home or carrying it along so that it can be sprayed wherever one goes, be it an elevator, a cab, metro, office or a restaurant.

The W2 Hand and Body Protection Spray can be applied to hands and any of the exposed body parts. The formulation of this product has been approved by the Ministry of AYUSH.

The W2 Surface Protection Spray once applied on any hard surface like wood, tiles, metallic surfaces, can give protection for up to 24 hours.

Amandeep Singh, Director, Life Essentials Personal Care said, “There is an urgent need for personal protection, for the public at large and especially the people who are going out of their houses every day. Our products are made to minimize the risk you and your loved ones face when they are going out or when someone is coming to your home or office".
