

HopeQure expands footprints in US markets

27 November 2020 | News | By Pooja Yadav

HopeQure now plans to launch its operations in the USA where the company is in advanced stage of discussion to finalize its partners for growth

HopeQure, India's fastest growing online mental health counseling platform based in New Delhi, achieves HIPAA (Health Insurance Portability and Accountability Act) security certification. Armed with HIPAA certification, HopeQure now plans to launch its operations in USA where the company is in advance stage of discussion to finalise its partners for growth.

Bringing the global best practices and international security and confidentiality standards in mental health domain in India was necessary as this is customers topmost concern while dealing with mental health related issues.

HopeQure is the fastest growing and highly admired online mental health video counselling platform for behavioral, psychological, emotional and relationship counselling. Its fully automated advance tech online video counselling platform is preferred by psychologists and clients for its pre and post counselling assistance while it is preferred by corporates for fully automated and customizable corporate employee mental wellness program.

HopeQure has been leading the mental health counselling industry in India with its active interactions with stakeholders including the insurance companies for complying with the latest supreme court directive, IRDA and government order on inclusion of mental health treatment under insurance plans, acceptance of mental health as a normal pre-existing disease and to promote mental health counselling and make it affordable through insurance policies for the benefit of common people in India.
