DetelPro unveils voice-enabled BP monitoring machine

16 December 2020 | News

DetelPro BP device is equipped with voice technology that enables people to hear their blood pressure reading

DetelPro, the health and hygiene vertical of Detel India has launched a new digital monitoring solution- Blood Pressure Monitoring machine (Di-BP01) in its medical portfolio. Priced at Rs 1499, this BP device is available for purchase on Detel's website.

DetelPro BP device is equipped with voice technology that enables people to hear their blood pressure reading. It also has an arrhythmia indicator that alerts the user of irregular heartbeat. This professional-grade device features 99 sets of storage for two people at a time and comes with an adjustable large arm cuff that fits arm circumference. Powered by DC 6V (1.5V Four AAA Batteries), this digital blood pressure monitor can also be powered using a USB charging port.

The product comes with 2 years of warranty and meets the requirements for both accuracy and cost-efficiency.

Early this year, DetelPro has Launched the World's Most Economical 'Make In Bharat' Infrared Thermometer at Just Rs 999. The company has a pipeline of new products to launch in the coming months and will continue to broaden its portfolio across the appliance category in the country.
