ChemTECH BioPharma World.IE Conference to cover nuances of biopharmaceuticals

19 January 2021 | News

The conference will also focus on the Bio Start-ups through the Accelerating Bio-Innovations to Marketplace session

The ChemTECH BioPharma World.IE Conference is set to explore and address the opportunity & the challenge through ChemTECH Biopharma World.IE Conference - Bio-Pharmaceuticals: A Next Big Opportunity, to be held from Feb 24 to Feb 26, 2021.

The opportunity in biopharmaceuticals is big and growing too rapidly to ignore. Today, biopharmaceuticals generate global revenues of $163 billion, making up about 20 percent of the pharma market.

Chaired by Dr Dinesh Dua, Chairman, Pharmexcil, & Executive Director, Nectar Lifesciences Limited, the conference will cover the nuances of Bio-Pharmaceuticals – the 360 degree approach to address move from the scientific frontier to the business mainstream; while the Digital Transformation session will reassess many of the strategies, technologies, and operational approaches; Supply Chain & Logistics – which is enabling the operational and technological challenges.

Welcoming the members of advisory board , he said, “This exposition and conference comes absolutely and appropriately in time to: one, make sure we invite the Indian participants and researchers to show that now is the time that we move up the value chain and two, why not innovation? Innovation in Biologics is right there. The amount of collaboration which is happening between academia and the industry as compared to 10 years is absolutely tremendous. In such a situation, it’s an honour and a pleasure to be heading this excellent committee. This might well mark a revolution in the biopharmaceutical space. I expect India to be a major force to reckon with in biosimilar space”

The conference will also focus on the Bio Start-ups through the Accelerating Bio-Innovations to Marketplace session. The idea is to sculpt the future of Bio-innovation in India. Chaired by Dr Uday Saxena, Co-Founder, Reagene Biosciences the session will showcase entrepreneurs and innovators producing new research which are driving the next wave of innovation and start-up ecosystem.

To drive the agenda of the conference and to fulfil its potential to garner attention to field of Biopharmaceuticals and to successfully navigate the promises and challenges of this segment, ChemTECH has partnered with BIORx Venture Advisors Private Limited.

As the Knowedge Partner to the conference, Vishal Gandhi, Founder & CEO said, “BIORx is very excited to partner for the second time with this forum to deepen our commitment to promote the Biopharmaceuticals emerging opportunity globally. We not only see big corporates making a strong commitment for R&D but Start ups are equally excited about the much needed relief of targeted molecular therapies and this platform will involve 360 degree view and hopefully position India as a BioPharma hub on the world map given its strengths in Pharmaceuticals and Biotechnology”.
