

Aster opens hospital for women & children care in Bengaluru

10 February 2021 | News

The new unit offers a wide number of specialties that include gynaecology, paediatrics, paediatric super-speciality, neonatology, foetal medicine and 24/7 emergency care

Aster DM Healthcare has announced the launch of its 49 bedded dedicated 'Women and Children Care Hospital' at Whitefield, Bengaluru. Comprising of 14 bedded neonatal intensive care unit (NICU) and a 7 bedded paediatric intensive care unit (PICU), this hospital will offer cutting edge multidisciplinary women and child care that will be steered by highly skilled medical professionals dedicated to providing world-class care and highest safety standards.

The new unit offers a wide number of specialties that include gynaecology, paediatrics, paediatric super-speciality, neonatology, foetal medicine and 24/7 emergency care. The other different facilities and services available at the hospital includes labour delivery suites, modular operation theatre, cardiotocography monitoring for a foetal heartbeat, 3D and 4D Ultrasound, paediatric ICUs, neonatal ICUs, X-Ray, birthing suites, and a 24*7 walk in pharmacy.

Dr Harish Pillai, Chief Executive Officer, Aster India, said, "Aster DM Healthcare is happy to announce the opening of the Phase 1 part of our 350-bed Aster Whitefield project, our latest offering to the Garden City of Bengaluru. While the entire Aster Whitefield project envisages a total investment of Rs 200 crore, this phase 1 launch of the Women & Children Hospital has been established at an investment of Rs 25 crore."

"The dedicated women and child hospital is standalone concept hospital that will be supported by a large multi-specialty hospital. The availability of a multi-specialty support can become an indispensable entity for the expecting mothers and can prove to be a life-saviour for both the mother and the child care at all stages and beyond," said, Dr Nitish Shetty, CEO, Aster Hospitals, Bengaluru.
