

3M India to consolidate Pune manufacturing facilities into single unit

12 February 2021 | News

These actions will enable 3M to operate more efficiently, simplify supply chains, leverage scale, and enhance customer support

3M continually assesses business operations to ensure the company is focused on the right opportunities to support strategic priorities, drive growth, and meet customers' evolving needs.

3M has made the decision to consolidate its Pune plants into a single facility at Ranjangaon, Pune and discontinue production at its Pimpri facility during the quarter Oct-Dec 2021. These actions will enable 3M to operate more efficiently, simplify supply chains, leverage scale, and enhance customer support.

The company has taken care and consideration to offer employment to all workmen in Pimpri at the Ranjangaon plant. 3M will work closely with employees and all stakeholders for a smooth transition.
