Hospido to provide home care for cancer patients across India

15 February 2021 | News

Hopsido aims to provide doctor-driven treatment from the comfort of the patient's home

Hospido, a tech-enabled online platform dedicated to treating cancer patients all over India, has forayed into the home care segment for cancer patients across India.

With a super-specialised team of efficient nurses having expertise in handling cancer patients, Hopsido aims to provide doctor-driven treatment from the comfort of the patient's home.

The team is equipped for delivering personalised care plans that enable seamless fulfillment of the requirements. From e-monitoring capabilities to availability of a general physician, the patient is dealt with utmost care and competency.

On this development, Karan Chopra, Founder, Hospido, said, “Our capable team of expert patient coaches and nurses, backed by our strong telemedicine capabilities will enable a higher level of independence and dedicated services to cancer patients and caregivers. Technology advancements have fuelled the growth of innovative healthcare delivery at doorsteps, and at Hospido we are committed to adopting and implementing new models of high quality care.”

Hospido empowers cancer patients & caregivers to get easy access to the right treatment and advice and provides high-quality treatment for all types of cancer. With home care in place, Hospido will have a more wholesome approach towards treating cancer patients across India.
