

Atal Innovation Mission partners with Aster DM Healthcare to push entrepreneurship

15 March 2021 | News

To transform HealthCare Innovations in India

Atal Innovation Mission (AIM), NITI Aayog has partnered with Aster DM Healthcare to support proactively the mission's innovation and entrepreneurship initiatives across the country with an aim to change and improve health care innovations and outcomes.

A Statement of Intent (Sol) of a strategic partnership between AIM and Aster was signed and exchanged between the two for the same. The purpose of Sol aims to support the various initiative of AIM programs and AIM beneficiaries in India to promote innovation and entrepreneurship amongst the aspiring entrepreneurs in the area of digital health care.

A unit of Aster DM Healthcare Group, Aster Digital Health Incubator (ADHI) will play a major role in supporting various Atal Incubation Centers (AICs), Established Incubation Centres (EICs), Atal Community Innovation Centres (ACICs) and Atal Tinkering Labs (ATLs) amongst other initiatives of AIM within the country.

The goal is to deeply engage with AICs, EIC, and ATLs across the country to achieve milestones in the area of healthcare innovative solutions with a focus on digital primary care and establishing a rich eco-system of digital health entrepreneurship.

In accordance with Sol with AIM, Aster will also be providing access to Aster Clinical Simulation Lab, Aster Federated Learning Data bank for AI healthcare research, ADHI, Aster Digital Health Center of Excellence, and other relevant facilities to the startups under various AIM initiatives.
