

Sleepwell donates 500 bedding units to India's largest COVID-19 facility

27 April 2021 | News

Operated by Indo-Tibetan Border Police (ITBP), The Sardar Patel COVID Care Centre is now open for COVID-19 affected patients

Sleepwell, mattress brand from Sheela Foam Ltd, has once again risen to the occasion to support healthcare efforts across the country. Continuing its partnership with the government, Sleepwell has donated 500 bedding units to India's largest COVID-19 facility. The bedding units comprise of mattresses, pillows and beds with a back-rest that is especially designed for patients that require oxygen. The company had helped set up the facility last year with a donation of 10,000 bedding units.

Operated by Indo-Tibetan Border Police (ITBP), The Sardar Patel COVID Care Centre is now open for COVID-19 affected patients.

Commenting on the initiative, Rahul Gautam, Managing Director, Sheela Foam Ltd said, "As the COVID-19 situation worsens in India, it is upon each and everyone of us to step up and support the healthcare infrastructure and the Corona warriors in our own small ways. Currently we had added 500 bedding units at The Sardar Patel COVID Care Centre and will continue to support with any further requirements."

The mattresses and beds have been specially created for the purpose of quarantining, hence are comfortable to sleep and sit on for long durations of time.

- The Healthmat mattress is made using a proprietary foam core for comfort and support, designed for long hours of sleeping & sitting. All these mattresses come with a special cover for easy wiping and sanitising. They are also treated with the patented Neem Fresche technology that ensures zero allergens & germs.
- The specially designed Envirobed can be assembled in under five minutes, is made of 100 per cent natural and recyclable corrugated hardboard, at the same time is water resistant and can be fully sanitised. The bed is light weight and portable yet has the ability to take more than 250 kg.
