DetelPro launches economical oximeter at Rs 799

27 April 2021 | News

Detelâ??s oximeter is based on all digital technology and intended for non-invasive measurement of functional oxygen saturation

DetelPro, the health and hygiene vertical of Detel, has announced its oximeter DI-OXY10 is for Rs 799 plus GST only. Detel's oximeter is based on all digital technology and intended for non-invasive measurement of functional oxygen saturation.

Commenting on the same, Dr Yogesh Bhatia, Founder, Detel, said, "We aim to remedy expensive medical bills and serve our customers with nothing but the best in class medical equipment. Our Detel oximeter will help a lot of people as there is an immediate need to amplify the supply of oxygen as well as equipment required for patients' care not only at home but also in hospitals. We all are very well aware of the current nightmare and therefore this will definitely prove to be a major help. We join hands with the government and are ready to serve the nation by introducing our cost-effective oximeter."
