Apollo Diagnostics launches drive -through COVID-19 testing facilities in Pune

14 May 2021 | News

The reports will be delivered within a time frame of 48-72 hours

Apollo Diagnostics has launched drive through COVID-19 testing facilities in Pune. Apollo Diagnostics, aims to test more patients in quick time keeping their safety and convenience in mind.

Vishwajit Reddy Konda: Business Lead – Digital Innovation, Development & Data Analytics, Apollo Diagnostics said “For the convenience of people and to increase the testing with safety protocols, we have set up COVID-19, RT- PCR testing at NSG IT Park. we are planning to have more such set- up at various locations across Pune, to help mitigate the risk of virus and ensure testing with ease. The complete process of registration and payment for testing is totally contactless. The facility is fully equipped for the testing and has the capacity to manage up to 250 patients per day.”

Those desiring to undergo RT-PCR test have to follow these easy and safe five step procedure:

1) Need to complete the registration process at the entrance by scanning a QR code and will, in turn, receive a token the number on their mobile.

2) They need to make the necessary payment online and proceed for testing.

3) A phlebotomist will take the sample from the person.

4) A message with details and a digital invoice will be received on the mobile.

5) The reports will be delivered within a time frame of 48-72 hours.

Carrying of the necessary identification documents, as specified by the government (PAN Card or Aadhaar Card), is mandatory.
