Spinny, 1MG Labs to provide on-the-spotÂ RT-PCR collections across Delhi, Mumbai, Gurugram

25 May 2021 | News

Spinny is supporting 1MG Labs in organising sampleÂ collections on the spotÂ as per ICMR guidelinesÂ and reports within 36 hoursÂ as per subsidised and government approved rates

Spinny, a new age pre-owned car end-to-end platform, has tied up with 1mg Labs to provide on-the-spot RT-PCR collections across Delhi, Mumbai and Gurugram from the safety of one's car.

Spinny has now provided delivery trucks used to deliver cars to its customers to 1mg Labs to conduct speedy on-the-spot drive-through collections in Sectors 29, 21 and 56 in Gurugram; and select locations in Delhi and Bengaluru.

Spinny is supporting 1mg Labs in organising sample collections on the spot as per ICMR guidelines and reports within 36 hours as per subsidised and government approved rates.

Niraj Singh, CEO and Founder, Spinny, says, "The need of the hour is to be there, on the road, in plain sight and aid our nation's diagnostics and healthcare system. Also, driving to a test centre in one's personal car is comparatively less riskier than visiting a more crowded space, at this juncture. We at Spinny do not think of this as a service, but as a necessity and laud 1mg's efforts.
