DIVOC Health launches molecular & diagnostic lab in Delhi

26 May 2021 | News

The lab is opening in Vasant Vihar, within the premises of the long- lasting iconic Basant Lok Hospital

DIVOC Health has launched its private molecular and diagnostic lab in Delhi. The lab is opening in Vasant Vihar, within the premises of the long- lasting iconic Basant Lok Hospital.

Speaking on the occasion, Dr Kanav Kahol, CEO, DIVOC Health, said, “With the continuing crises, our capital deserves an innovation-centred diagnostic lab to serve its community. Through this lab, we also shift our headquarters to the hospital.”

They have received NABL certification to run molecular biology testing in their lab and have ICMR permission for running RT-PCR COVID-19 testing.

Using innovative products and approaches, DIVOC aims to address the needs of the Indian healthcare market. DIVOC Health is a new enterprise bringing innovative healthcare products into the Indian market.
