

CORE Diagnostics bags accreditation from College of American Pathologists

09 June 2021 | News

CORE Diagnostics becomes one of the nearly 8,000 CAP-accredited facilities worldwide and one of only fourteen standalone labs in India

CORE Diagnostics has recently received an accreditation certification from the College of American Pathologists (CAP), a leading international laboratory accrediting organisation, based on the results of a recent assessment as part of the CAP's Accreditation Programs.

Commenting on the accomplishment, Dinesh Chauhan, CEO, CORE Diagnostics, said, "This is another step in our company's expansion plans and towards offering best-in-class diagnostic accuracy while complying with rigorous criteria of quality assurance to all."

CORE Diagnostics becomes one of the nearly 8,000 CAP-accredited facilities worldwide and one of only fourteen standalone labs in India. This certification by CAP accredits a whole range of tests that includes diagnosis in fields like cardiology, oncology, endocrinology, infectious diseases, gynaecology and nephrology.

"CORE Diagnostics demonstrates leadership, innovation, and a passionate commitment to standards of excellence while providing the highest quality services, ultimately for patients," said Richard Scanlan, FCAP, chair of the CAP's Council on Accreditation oversees the programme.

Dr Shivani Sharma, Lab Director, CORE Diagnostics shared, "We are proud about this achievement. Being certified by CAP is a reflection of our commitment to the highest standards of quality in diagnostic testing to our clinicians, hospitals and patients."
