GVK EMRI sets up a 50-bed hospital in Hyderabad

11 June 2021 | News

The hospital currently has a capacity of 30 oxygen beds, 10 non-oxygen beds and 10 ICU beds

GVK EMRI has set up a 50-bed multi-speciality hospital at its 108 GVK EMRI Headquarters near Kompally in the outskirts of Hyderabad. Presently it will cater exclusively to COVID-19 patients.

The treatment (COVID only as of now) will be provided free of charge. The hospital currently has a capacity of 30 oxygen beds, 10 non-oxygen beds and 10 ICU beds. There is also a provision of single room accommodation.

Medical specialists from the University of Michigan will provide medical guidance for case management of the patients admitted at GVK EMRI hospital. It has a covid lab and provides pharmacology support.
