

Govt installs medical oxygen generator unit with pipeline in Kutch

07 July 2021 | News

Deendayal Port has installed the facility at the total cost of approx. Rs. 50 lakh

Mansukh Mandaviya, Union Minister, Health & Family Welfare, virtually inaugurated Medical Oxygen Generator Unit with copper piping network at State Government hospital, Rambaug in Kutch. Deendayal Port has installed the facility at the total cost of approx. Rs. 50 lakh, to cater the treatment of patients at the hospital.

"The plant will ensure expeditious oxygen refilling for smooth and continuous oxygen supply to all the beds & wards in the hospital. All ports are contributing to fighting against COVID-19 through their CSR activities. It is the responsibility of ports to provide better facilities to the people living in the surrounding areas", Mandaviya said.

The installed oxygen generator unit at Govt. hospital, Rambaug, is of having capacity of 20,000 liters/hr. at 5-6 bar pressure, which can be utilized for treatment of COVID-19 as well as other patients in the locality.

The system will eliminate the hardship of frequent refilling the cylinders for treatment of patients, and will ensure smooth and continuous oxygen supply to the hospital.
