Redcliffe Life Diagnostics launches four new labs

19 July 2021 | News

Aims to cater to the new surge in home comfort diagnostics led by post-covid care

Redcliffe Life Diagnostics, a unit of Redcliffe Lifetech US and India, recently launched four new labs in Patna, Indore, Raipur and Noida. The four new labs are part of the larger expansion at Redcliffe Pathology portfolio. Additionally, three new labs are planned to go operational every month.

Dheeraj Jain, Founder, Redcliffe Life Diagnostics said, "With this expansion drive, Redcliffe Life Diagnostic aims to raise awareness about its services and established a widespread awareness for preventive healthcare in the country. The company is working with the belief that proper diagnosis can be a major tool to narrow the healthcare gap between rural and urban India. We started home collection last year and are now launching labs in various cities in the next 12 months to offer last-mile service delivery.”
