PharmEasy to launch development centres in Hyderabad, Pune and NCR

13 September 2021 | News

Aims to hire 200+ engineering talent

PharmEasy is now looking to hire 200+ engineering talent for its soon-to-be-launched development centres in Hyderabad, Pune and NCR region. PharmEasy is planning to strengthen its hiring across technological functions.PharmEasy currently stands strong with 6100+ employees.

Abhinav Yajurvedi, CTO, PharmEasy, says, “The new facilities will serve as a significant hub for driving development and innovation. Ahead of the opening of the new centres, PharmEasy will provide opportunities for inquisitive technology professionals across product and engineering, in different locations from all over the country, with a flexible work model. The centres will begin their operations with a team of experienced leaders who will be at the forefront of the growth charters. The development centres will be available in hybrid and flexible working environments, operating out of shared working spaces for hiring tech talent."
