

MedleyMed forays into global market

24 September 2021 | News

MedleyMed will strengthen Athena Global Technologies strategic business expansion plans

MedleyMed, a subsidiary of Athena Global Technologies, has entered the US and other global markets with a suite of digital health solutions for both pharmacy businesses and patient care. The company is also expanding its operations within India and has strong plans to launch its exclusive e pharmacy and telemedicine services by the end of 2021 and offline pharmacy presence through a franchisee network under MedleyMed brand.

Announcing the business expansion plans of MedleyMed, M Satish (Satyendra), MD, Athena Global Technologies and MedleyMed said, “. With an existing suite of business offerings in B2B and B2C healthcare platforms, we see great potential in the global market and have decided to expand our business operations.”
