# SpiceHealth launches pathology testing services in Delhi

30 September 2021 | News

**Offers sample collection including walk-in, home collection and corporate collection**

SpiceHealth has decided to foray into pathology laboratory services launching its first state-of-the-art pathology lab at Sama Hospital, Siri Fort Road, New Delhi. The pathology lab will offer a wide range of affordable testing like haematology, clinical pathology, biochemistry, Complete Blood Count (CBC), liver function test, kidney function test, lipid profile, blood sugar, urine routine etc. The lab will offer sample collections through walk-in, home collection and corporate collection.

SpiceHealth's path lab is equipped with advanced facilities and will have a team of highly qualified professionals including dedicated pathology staff, experienced technicians and a dependable home collection team. SpiceHealth aims to disrupt the path lab space in India by making services easily accessible and affordable for the general public. The company will leverage its robust IT infrastructure built in-house, to ensure the quality, reliability and scalability of offering essential healthcare services.
