Key Highlights-

- Developed a connected care platform that facilitates seamless transmission of information across various stakeholders of the healthcare industry
- The platform consists of modules for patient engagement, practice management, digital EMR, and smart devices, which are used by healthcare providers and patients
- Navia Smart EMR uses AI-enabled suggestions, voice-to-text, and handwriting recognition to help healthcare providers and doctors create digital prescriptions faster and with minimal behavior change.
- Navia e-Consult helps doctors establish virtual OPDs, including video and teleconsultations, which comply with all guidelines and security measures.
- Navia QM helps in streamlining the patient flow and reducing OPD waiting times in crowded clinics and hospitals.
- Navia Connected Care also integrates with smart medical devices in order to capture real-time data and help to prescribe doctors diagnose patients in a better way.
- Aims to enable more than 250000 doctors and over 200 million patients in over 10 countries by its digital health platforms
- One of the top 8 startups in Asia by Galen Growth, Singapore
- Awarded the most innovative health-tech startup in Asia
- Selected in Google for Startups Accelerator Batch of 2020

Founder Speaks-

"Digital healthcare has been slowly making emerging and regarded as an indispensable tool in India and is now set to revolutionize the entire healthcare ecosystem. Given the rapid adoption of digital health tools and favorable govt reforms, we foresee exponential growth in the coming month in terms of the number of users and revenue."

- Gaurav Gupta, Co-Founder & Chief Operating Officer, Navia Life Care, New Delhi
