

Reliance Jio-backed KareXpert's digital solutions adopted by 13 Indian states

18 November 2021 | News

Aims to streamline the Indian healthcare infrastructure

Reliance Jio-backed KareXpert has announced that hospitals and healthcare centres are now using its services in 13 states across the nation, including Bihar, Jharkhand, Chhattisgarh, and Uttarakhand. The announcement comes in line with KareXpert's mission to deliver digital healthcare services in India (inclusive of tier 2 and 3 cities), enabling citizens to access quality and affordable healthcare.

KareXpert aims to streamline the Indian healthcare infrastructure by bringing digital healthcare disruption with the latest technologies to every hospital of India, irrespective of their size and location.
